DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-8 remain rejected under 35 U.S.C. 102(b) as being anticipated by WO 02/44314 for the reasons of record in the previous office action.

Response to Arguments

3. Applicant's arguments filed March 27, 2007 have been fully considered but they are not persuasive. Applicant argues that the creamy composition which is formed upon shaking does not constitute a water-in-oil microemulsion. This is correct, but it is not persuasive because the examiner takes the position that, upon clearing, the oil phase of the composition will have some amount of water present in it, emulsified therein by the emulsifying surfactants which are present in the composition. The clarity of the oil phase implies that water present therein is in the form of a microemulsion. The Office lacks the facilities to prove this assertion. However, the components are common, and the assertion could quickly be proven or disproven by applicant with a simple light scattering test. In addition, the behavior of the prior art composition appears to be the same as that exhibited by applicant's compositions (specification, para. bridging pp. 2-3). Regardless of whether or not the organic phase of the composition is a water-in-oil emulsion before shaking, it is a water-in-oil emulsion after shaking and clearing.

4. The examiner will accept affidavit evidence directed to this assertion after final rejection.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to the examiner, Dr. John R. Hardee, whose telephone number is (571) 272-1318.
